

The Birth of Baby Groot! World's Best Community Coin

Baby Groot Coin has learned a few tricks and lessons from his meme father, Doge. A new crypto birthed by fans of the Doge Coin online community. Baby Doge seeks to impress his father by showing his new improved transaction speeds & adorableness. He is Hyper-deflationary with static reflection that rewards holders, so more baby doge coins are being automatically added to your wallet each transaction. Simply Love, pet, and hold as 5% from each transaction is automatically redistributed to baby Groot holders.

More Information

Baby Groot! Rewards in your Wallet

Baby Groot is cute but with a lot of BITE! \$Baby Groot is a deflationary token designed to become more scarce over time. All holders of Baby Groot will earn more baby doge that is automatically sent to your wallet by simply holding Baby Doge coins in your wallet. Watch the amount of baby doge grow in your wallet as all holders automatically receive a 5% fee from every transaction that happens on the Baby Groot network. The community receives more baby doge coins from the fees generated each transaction.

Auto & Manual Burns

We have burned 29%+ of the supply. That means out of the 5% of the redistribution 29% will be distributed to the dead wallet. Coins are burned with every transaction.

Rewards Holding

5% of each transaction is redistributed to token holders. That means you can earn more Baby Doge Coins by just holding them in your wallet. (centralized exchanges/wallets may not apply tokenomics/

Charity Wallet

We have a designated charity wallet that receives redistributions that are used to support our charity partners.

Locked Liquidity

Majority of LP tokens locked & some burned.
